

FREE

WORRY-FREE WATERING

With a New Sprinkler System

What:

Exchange your old sprinkler for a new Weather-Based Irrigation Controller (WBIC) that will:

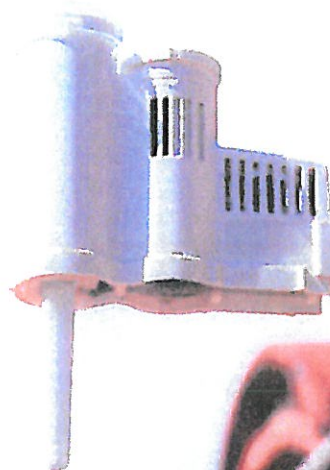

- Reduce outdoor water use by up to 30%
- Improve the health and beauty of your landscape
- Reduce ocean run-off
- Save up to 40 gallons per day

**For event dates and to register,
call (310) 371-4633 today!**

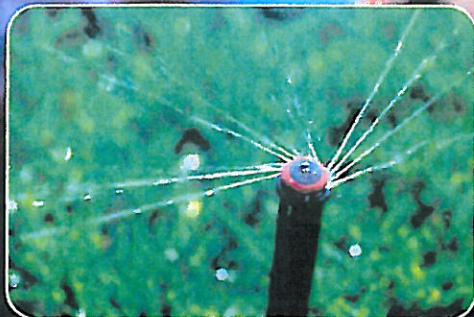

Pre-registration is required.

*Eligibility requirements apply,
please call for full details or visit
www.westbasin.org.*

Get a Free Weather-Based Irrigation Controller (WBIC) in 3 Easy Steps

1. Call *South Bay Environmental Services Center* to register: (310) 371-4633
2. Bring your old sprinkler controller and water bill to an Exchange Event
3. Attend a quick 20 minute orientation and receive your new WBIC

It's that easy!

**ELIGIBILITY

- The home must be located in West Basin's service area
(see list of cities in Service Area map legend below or visit West Basin's website at www.westbasin.org)
- Must have a non-weather-based irrigation controller to exchange
- Must exchange your old controller for a new smart weather-based controller at the event
- Must attend a mandatory free 20 minute orientation at the event
- Must bring a copy of your water bill

* Water savings will vary based on existing watering habits, type of garden, WBIC programming and monitoring of the controller, irrigation system, and proper scheduling.

Disclaimer: Any and all product issues will be handled by the manufacturer, Hunter Industries, and the product supplier, John Deere.
